CSS3: Borders

J. Michael Palermo IV

www.palermo4.com

Module Overview

- **Resizable**
- **Rounded corners**
- **Shadowing**

When the complaint box isn't big enough

Resizable

Resize

```css
.box {
  resize:      both;  none|horizontal|vertical
  overflow:    auto;  !visible
  max-width:  600px;
  max-height: 400px;
  cursor:      move;
}
```

Smoothing out the rough edges

Rounded Corners

Rounded Corners

```css
.softCorners {
   border-radius:  5%;
}
.roundUp {
   border-radius:  2em;
}
.sameAsRoundUp {

   border-top-left-radius:2em;
   border-top-right-radius:2em;
   border-bottom-right-radius:2em;
   border-bottom-left-radius:2em;
}
```

**Providing depth and perspective to what we display**

Shadowing

Box Shadows

```
.downRightShady {
   box-shadow:  4px 4px #00000;
}
.upAndLeftShady {
   box-shadow:  -4px -4px #00000;
}
.shadeWithFade {
   box-shadow:  4px 4px 10px #00000;
}
.glowing {
   box-shadow:  0 0 10px 5px #44FF44;
}
```

Complex Box Shadows

```
box-shadow:
0 0 1em 0.5em #000000,  /*  all sides */
3em -3em #FF0000,  /* upper right */
3em 3em 4em 1em #00FF00,  /* lower right */
-3em 3em #FFFF00,  /* lower left */
-3em -3em 4em #0000FF;  /* upper left */
```
